Experience

Lexmark

Jan 2025 – Present

Software Engineer 2

Kolkata

- Customized and extended an AEM Edge Delivery Services e-commerce storefront built on a preconfigured commerce framework, leveraging Drop-in Components and a no-build architecture with vanilla JavaScript.
- Integrated GraphQL-based Catalog APIs, Adobe Data Layer, and Product Discovery Drop-ins to build and override UI components, enhancing functionality and user experience.
- Developed responsive, accessible UI functionality aligned with EDS block architecture and Adobe Universal Editor conventions, ensuring consistency and scalability across the storefront.
- Improved frontend performance by optimizing network requests and mitigating WAF constraints, achieving a 35% increase in Lighthouse performance metrics.
- Modified and enhanced AEM components by introducing well-structured SCSS and JavaScript solutions, enabling easy integration with the backend and improving the overall user experience.
- Created and maintained distinct, optimized CSS for AEM components using CSS functions, mixins, and variables, resulting in a 30% increase in total performance by minimizing code repetition and improving scalability.
- Built a common ui.frontend folder for multiple sites using Webpack, streamlining asset bundling and decreasing build time by 60%, resulting in faster deployments and better efficiency.
- Collaborated closely with designers, backend developers, and content authors to ensure pixel-perfect implementation of UI components while maintaining to design principles and branding.

Nagarro

June 2022 – Jan 2025

Engineer

Gurugram

- Designed and implemented optimized UI/UX features for a banking system using Angular v16, JavaScript, and Microfrontends, resulting in a 30% increase in user engagement and improved navigation.
- Developed scalable and modular web applications for BFSI clients, using Microfrontends architecture to facilitate easier maintenance and upgrades.
- Boosted application performance by optimizing code, reducing load times by 50%, and implementing efficient lazy loading and caching strategies for a smoother user experience.
- Enhanced frontend security by implementing auto-expiring cookies, enforcing timely email and password updates, protecting sensitive financial data, and ensuring compliance with industry regulations (e.g., PCI-DSS)
- Proficient in SASS for efficient styling, ensuring consistency and ease of maintenance across multiple web applications.
- Streamlined the reimbursement claims process by developing a comprehensive web application enabling users to enter data, upload bills, and track status. Utilized ASP.NET Core with Entity Framework Core and SQL Server to build a robust backend.

Cognizant

Feb. – May 2022

Programmer Analyst Trainee

Kolkata

- Created efficient ETL processes using Informatica PowerCenter, improving data extraction and loading times by 25%.
- Developed and optimized stored procedures to encapsulate business logic, resulting in a 20% improvement in database performance..
- Wrote complex SQL queries, joins, and subqueries for data manipulation, increasing data retrieval efficiency by 15%.
- Implemented triggers for data validation, ensuring accuracy and consistency with business rules..
- Optimized SQL queries and procedures for performance and scalability.

Technical Skills

Languages: JavaScript, Typescript, SCSS, HTML/CSS, Dotnet, MySQL

Technologies/Frameworks: Angular, Adobe Edge Delivery Services(EDS), Karma, Jasmine, ExpressJS, GraphQL, Bootstrap v4/v5, Microfrontends, ASP.Net, RESTs api

Developer Tools: Adobe Experience Manager(AEM), Webpack, Git, Jenkins, Visual Studio

Online Courses / Certifications

- GATE 2022 | CSE Feb, 2022
- MERN STACK BootCamp | LearnCodeOnline Nov, 2020
- Python programming. | Udemy Jul, 2020

Education

Asansol Engineering College

Grad. July 2022

Bachelor of Technology | Information Technology | GPA: 8.53

Asansol, West Bengal
